

Do you want to plan for the future of your region but don't know where to start?

Have you started building a relationship with another municipality but don't know what to do next?

Our current, active MCDP working groups will continue to receive services free of charge.

MCDP continues to provide initial presentations, access to our website resources, community forum, and Interconnections newsletter FREE OF CHARGE to all municipalities.

The Municipal Capacity Development Program (MCDP) can assist municipalities in building a sustainable future through inter-municipal partnerships. We offer assistance in developing:

- COMMUNITY ACTION PLANS (STRATEGIC PLANS) -
- COMMUNITY RESOURCE INVENTORIES (LOCAL/REGIONAL ASSET MAPPING) -
- MEMORANDUM OF UNDERSTANDINGS -
- NEEDS ASSESSMENTS -
- COMMUNICATION PLANS -
- AND MORE...*

Our subsidized fee structure provides an excellent opportunity for large and small inter-municipal groups to receive quality, professional products at a reasonable cost.

At \$30.00/hour, municipalities will be receiving high-quality products at significantly reduced rates. This low hourly rate is only possible because costs are generously subsidized by MCDP.

For more information about our service pricing or questions about our new process, please visit our website at www.municipalcapacity.ca or email us at municipalcapacity@sarm.ca.

"The assistance of the MCDP has been invaluable. The direction provided in terms of documentation required and specific items to include, such as a Memorandum of Understanding and Workplan, would not have been completed as easily without the assistance of the MCDP staff."

- Twin Lakes Community Planning Association, Saskatchewan Municipal Best Practices 2011

"It is important to request assistance from organizations such as the Municipal Development Capacity Program to help facilitate and move the regional partnership forward especially during the early stages of development."

- North of Divide Community Association, Saskatchewan Municipal Best Practice 2011

MCDP's New Service Pricing

Effective August 1, 2011, pricing for MCDP services may vary, depending on the number of municipalities involved and the actual hours to complete the work. To receive a customized quote, please contact municipalcapacity@sarm.ca.
